SMART WATCH
PRODUCT PICTURE ALBUM

Company Profile

Shenzhen DLD Intelligent Technology Co., Ltd. (DLD smart) is an innovative technology company dedicated to the research and production of smart watches, smart bracelets and other smart wearables. Its product functions cover health monitor, sports tracking, smart payment, smart notification, smart home control, etc.

DLD smart is capable of product design and R&D development, with own factory and a professional pre-sales and after-sales service team, aiming to efficiently provide one-stop services to global customers.

Along with the market demand, more and more brands prefer to get a good product ID which is with intelligent functions and fashion elements, to achieve the users' needs of high-quality and personalized customization. Then trust us, this is what we can do for you!
